4 Suggested answers:

1 Writers include villains in their stories to develop the plot and make it more interesting, and to give the heroes someone to fight against.

2 Readers like villains because they provide a lot of the interest in the story, and sometimes we like to take the side of a person who is not the hero.

3 According to the author, Heath Ledger took the Joker's character to a 'new level', which probably means that he made the Joker more complex, intense and interesting than before.

4 If there were no villains, there would be nothing for superheroes to do, so they probably wouldn't exist.
